Summary

Product Designer with 5+ years — from complex financial-services platforms in large enterprises to end-to-end product work in small teams startups. I design, prototype, and ship user centric solutions in Figma, grounded in design systems and customer journeys. I also use AI-driven methods with a solid technical background (Tech Degree, Low-Code Development).

Highlights

+50.000 User Impact: Led B2B Portal redesign, delivering impact to a network of +50k corporate users.
+40% Delivery Accelerated: 15+ products with Low-Code/AI tools, accelerating time-to-market by +40%.
Tech / Design Mastery: Degree in Information Systems - Specialist in Design System and Handoff.

Experience

Product Designer - Elo (Full Time)

Nov 2024 - Present

Context: Lead the redesign of Elo's B2B Portal, the central hub for all corporate partners.

Action: Redesigned **30+** functionalities, delivering high-fidelity prototypes built on the Design System.

Result: Launched B2B Portal redesign for partners, serving a network of over **50,000+** corporate users.

Product Designer - Gingalabs (Full Time)

May 2023 - Nov 2024

Context: Acted as product designer/low-code developer, delivering for clients as **Meta** and **Volkswagen**.

Action: Designed user-centered interfaces and implemented them in low-code using AI-Driven tools.

Result: Launched **15+** digital products, accelerating the delivery time by **40%** through the fast handoff.

Product Designer - JCCBR (Self Employed)

Dec 2022 - May 2023

End-to-end design and delivery for web/mobile clients, functioning as a Designer / Low-Code Developer
Applied **AI-Driven** tools to tackle ambiguity, delivering ready and functional products.

UX/UI Designer - Sul Comunic (Full Time)

Dec 2021 - Dec 2022

Established and executed the full UX/UI design workflow.

Design Thinking and **Double Diamond** to tackle ambiguity, delivering high-fidelity Figma prototypes.

Work on High Fidelity Prototypes, UX Research, User Journeys, A/B Testing, Information Architecture...

Designer - Agencia BR (Full Time)

Dec 2020 - Dec 2021

Defined brand visual foundations (**Brand Identity, Social Media**) and delivered high-quality assets.
Established visual guidelines that supported subsequent high-fidelity UI production and **design system**.

Skills

Product Design: UX Design, UI Design, Design Systems, Visual Design, Interaction Design, Web Design, Mobile Design, Responsive Design, User Research, Usability Testing, Wireframing, Prototyping, Accessibility, Design Thinking, Double Diamond, A/B Testing, Product Strategy, Product Development.
Communication: Presentations, Communication, Stakeholder Management, Storytelling.
Tech: Front-end Development, Artificial Intelligence (AI), Machine Learning (ML).

Tools

Design: Figma, Figjam, Miro, Photoshop, Illustrator, ProtoPie, Notion, ZeroHeight, Google Analytics.
Low-Code: Wordpress, Webflow, Flutterflow, Bubble, N8N, Framer, CMS.
Code: HTML, CSS, JS, React, NodeJS, VueJS, Tailwind, Bootstrap, Shadcn, Material UI.
AI Tools: Figma Make, Lovable, Claude Code, Cursor, Midjourney, Gemini, Stitch, Copilot, LLMs.

Education

USP ICMC - University of São Paulo (São Carlos, Brazil)

Bachelor's Degree in Systems Information (Jan 2022 - Jan 2026)

Relevant Coursework: Human-Computer Interaction (HCI), UX Design, Digital Accessibility, Artificial Intelligence, Requirements Engineering, and Agile Development.

DAL - Dalhousie University (Halifax, Canada)

MITACS Globalink Research in Data Science (Oct 2025 - Mar 2026)

Awarded a **Canadian government scholarship** to modernize the architecture of a maritime data system.
Replaced legacy solutions, reducing the codebase by **80%** and increasing query efficiency by **50%**.
